Work Experience

Front-end Engineer : [Triggerbee AB](#) Stockholm
From 2017 to 2018

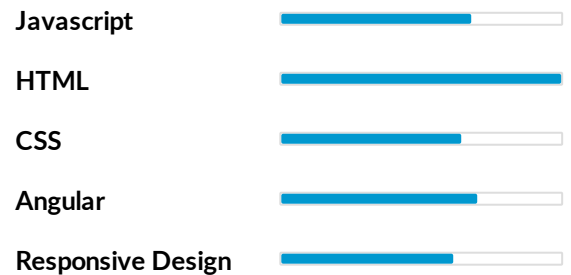

I was part of a small team that focused on the Front-end stack of the application. The application was an analytics tool built in Angular, SASS, and Jasmine. My tasks involved building software - modules and components - in Angular and styling the application using SASS.

Travel

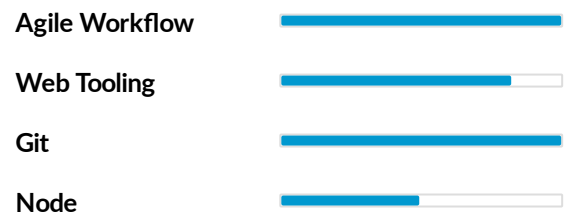

Sweden I studied here in gymnasium and university and I live here as of now.

Czech Republic I moved here to pursue medical studies but only completed my first year as I realized medicine was not my calling.
